Notice of Change in School Traffic Pattern
7/14/09

For the upcoming school year (2009-2010) the following change will be made in the traffic pattern for Stephens County Schools.

SCMS: Parent **Dropoff/Pickup will access SCMS from Roselane** and drop off students at the loop near the belltower. All SCMS school buses will drop off at the rear of the school from Wetlands Trail (Off Sorrells Road). **The rear access of the middle school will be for school bus traffic only.** This change is necessary due to increased construction traffic for the high school project.

SCHS: As a reminder, the rear access to the high school continues to be closed and accessible only to construction vehicles. All student dropoff/pickup and school bus traffic will enter the high school from White Pines Road.

There are no changes to any other schools (BigA, Eastanollee, Liberty, Toccoa, and Crossroads are not affected). We appreciate your continued patience during this time of construction on our new high school facility. If you have any questions please see your school’s principal.
